

Conceptual Design Workshops

for

U.S. Highway 101 Bicycle / Pedestrian Bridge and Bikeway

The City of Belmont is pleased to announce the commencement of conceptual design for a new bikeway and pedestrian project that will link Downtown Belmont and the Caltrain Station with Nesbit Elementary School and the Belmont Sports Complex east of U.S. Highway 101. The centerpiece of the project will be a new bicycle and pedestrian bridge that will allow safe access across the freeway as an alternative to the existing Ralston Avenue Overcrossing.

As a member of the Belmont community, the City would like to invite you to participate in a series of conceptual design workshops that will provide an opportunity for the public to participate in the development of the project design, including the new bridge crossing! The City wants this project to bear the signature of the Belmont community. As such, the conceptual design workshops have been planned to include the following activities:

- ◆ Characterize the "Essence of Belmont"
- ◆ Develop a Project Vision Statement
- ◆ Present and Screen Design Alternatives
- ◆ Present the Winning Design Concept

The City of Belmont appreciates your interest in the improvement of our community. We look forward to working together with you to create something we will all be proud of and enjoy for many years to come.

Design Workshops

January 31, 2001

February 28, 2001

April 18, 2001

7:00 P.M. – 9:00 P.M.

Nesbit Elementary School
(Auditorium)
500 Biddulph Way
Belmont, California

Workshop No. 1

- Characterize the Essence of Belmont
- Prepare the Vision Statement
- Present examples of previous similar projects

Workshop No. 2

- Screen alternative design concepts and bikeway alignments
- Select detailed design elements

Workshop No. 3

- Create final design concept

The workshops will develop the design concept from start to finish. We invite you to attend all three workshops to participate in this evolution.

Note: The time and place of the second and third workshops are subject to change. If you have any questions, please contact the City of Belmont, Mr. Duncan Jones, Project Manager (650) 595-7425.
